Introduction

This compilation of scrap paper prices, as tracked in each issue of The Paper Stock Report, was produced due to the high number of requests for such historical information. This report includes prices paid by paper and paperboard mills and other end-users based on surveys of buyers and sellers of the scrap paper.

The data in this report comes from the prices listed on page 2 of each issue of The Paper Stock Report.

Included are 18 of the most commonly-traded grades, identified by name and PSI grade number. This number corresponds to the grades as defined by the Institute of Scrap Recycling Industries Scrap Specifications Circular-2002. For information about this Circular, call ISRI, at (202) 737-1770.

Using this report:

Scrap paper grades are listed in this report in order of PSI number, beginning with No. 1 Mixed Paper. Each grade is comprised of six tables, each of which show the prices - listed in dollars per ton - published in each issue of the PSR for a particular geographical region: Midwest (MW); Northeast (NE); Northwest (NW); Southeast (SE); Southwest (SW) and Los Angeles (LA).

Each table includes a low price, a high price and an average of the two. The low and high prices are based on data reported to The Paper Stock Report by buyers and sellers. The date listed is the issue of The Paper Stock Report in which the prices were published.

Following the tables for each grade is a line graph which depicts the pricing trends for that grade based on the average prices listed for each region.
